

Mission and Ministry Development Review

Choosing Your Consultant

How to use this PDF

These PDFs are provided as a practical aid for anyone who prefers to prepare their responses on paper or in another format before completing the official online forms. They mirror the structure and questions of the online forms, allowing you to think through your answers, draft wording, and gather any necessary information at your own pace. Once you are ready, you can transfer your agreed responses into the online form for submission. This approach helps ensure accuracy, clarity, and confidence in what you share.
